

I'D LIKE TO GET A 4-YEAR DEGREE AND I HAVE MY HIGH SCHOOL DIPLOMA

Both the ACT and the SAT are nationally administered standardized tests that help colleges evaluate candidates. All schools accept either test interchangeably. So as you begin to think about college and creating the best application package possible, your admissions plan should begin with the question, "Which test should I take?"

The ACT Assessment test is an admissions requirement at some colleges. The instrument consists of a battery of four academic tests that measure academic development in English, Mathematics, Reading, and Science Reasoning. The Assessment provides scores on the four tests, a composite score, and seven sub scores which provide more detailed information concerning an individual's academic development.
