

GRE Revised General Exam

I WOULD LIKE TO GET A GRADUATE DEGREE.

If you are applying to graduate or business school, you will be required to take a standardized examination. Few students understand the benefits of standardized testing, but they help admissions officials determine who is capable of withstanding the rigors of graduate school. Different schools have different admission requirements, so you'll need to determine which test is right for you.

GRE revised General Test

The GRE is a standardized test required for admission to most graduate schools in the United States. The exam aims to measure verbal reasoning, quantitative reasoning, analytical writing and critical thinking skills acquired over a long period of time.

The GRE revised General Test is offered on computer throughout the year in most regions of the world. Paper-based administrations are offered in areas where computer-based testing is not available.

Obtain information regarding GRE testing policies, fees, registration procedures and the nearest GRE Test Center by visiting www.ets.org/mygre.

DANTES reimburses the test fee only for eligible military personnel once per lifetime. Carefully review the rescheduling and cancellation sections in the *GRE Information and Registration Bulletin*, as Service members are responsible for paying all fees.
